

Word Game

Yoon Kim, Wen Zhong, Lingpei Zhou

This program is a word learning game for children. It consists of three parts. Users can learn words in the first part. We have provided users with related images and audios. Users can add a word to review list if they want to review it later. The second part is a game part. Users can solidify what they have learnt in the first part by playing the game. The third part is to help user review those words they are not familiar with.

1. Launch board

This is the start page of our program. Users can click on any of the four buttons.

- Watch Lessons!

This will lead users to the word learning part of our project.

-
- Play Games!

This will let users to play a word related game.

- Review

Enter the review part of our program.

- Exit

Exit the program.

2. Watch lessons

This is the first part of the program. Users will first see a lesson list. We provide them with five lessons. They can choose which lesson to learn.

After they choose a lesson, they will see the following page.

This is what our word card looks like. This panel has four buttons.

- Previous

By clicking this button, users can get back to the previous word

- Next

Users will get the next word

- Add To Review List

Users can click “Add To Review List” to add the word to review list.

- 

If this button is clicked, users will get the audio for the word.

After users finish a lesson, they will see the following page.

- Play Game

This will lead users to the game part.

- Go To Review List

This will lead users to the review part.

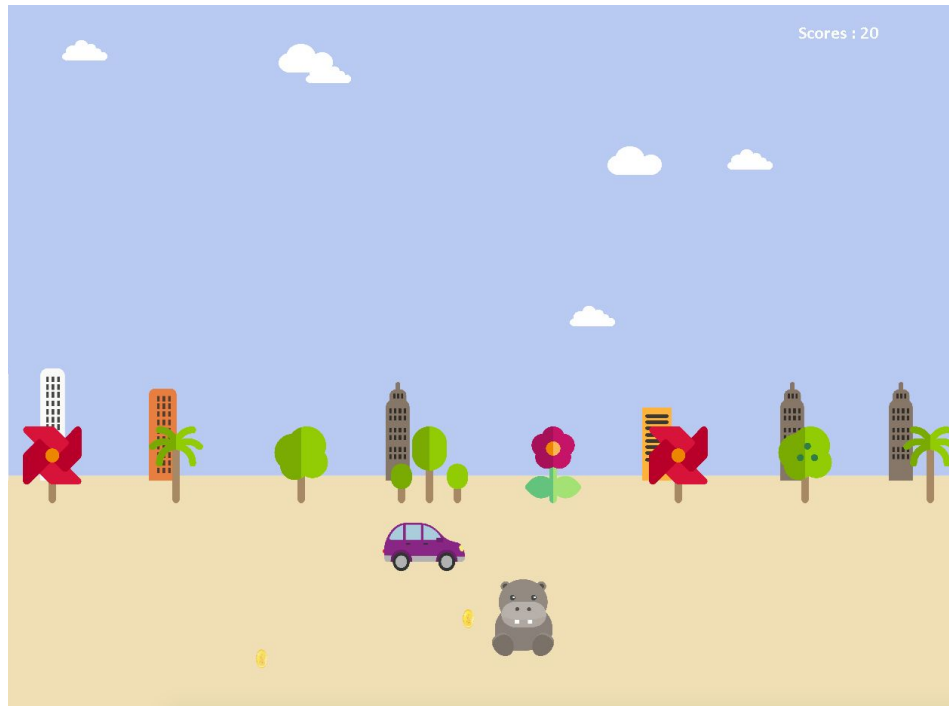

- Home Page

If users want to return to the home page, they can click this button.

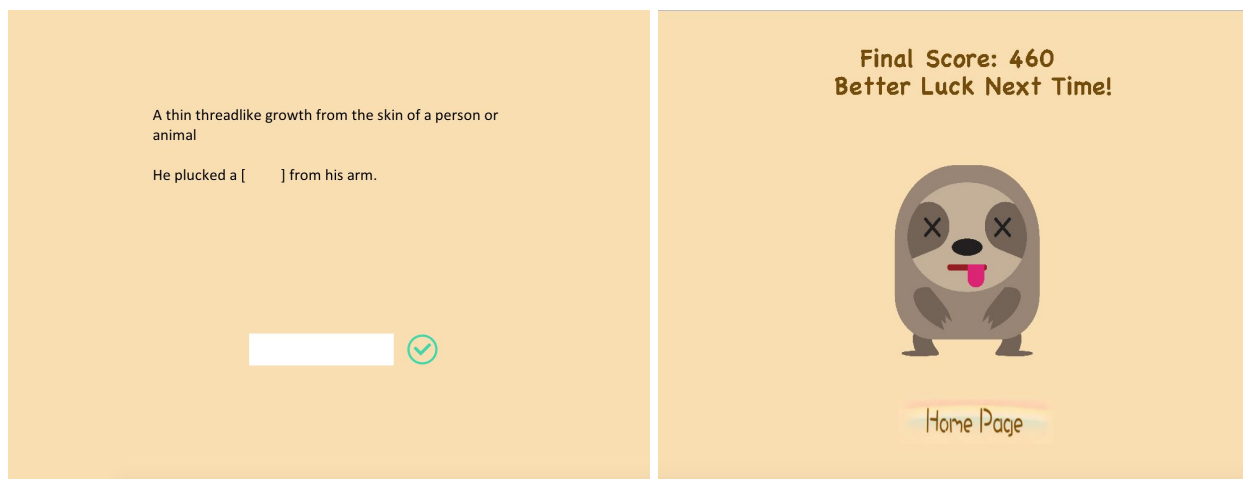

- Next Lesson

This will lead the user to next lesson.

3. Play Games

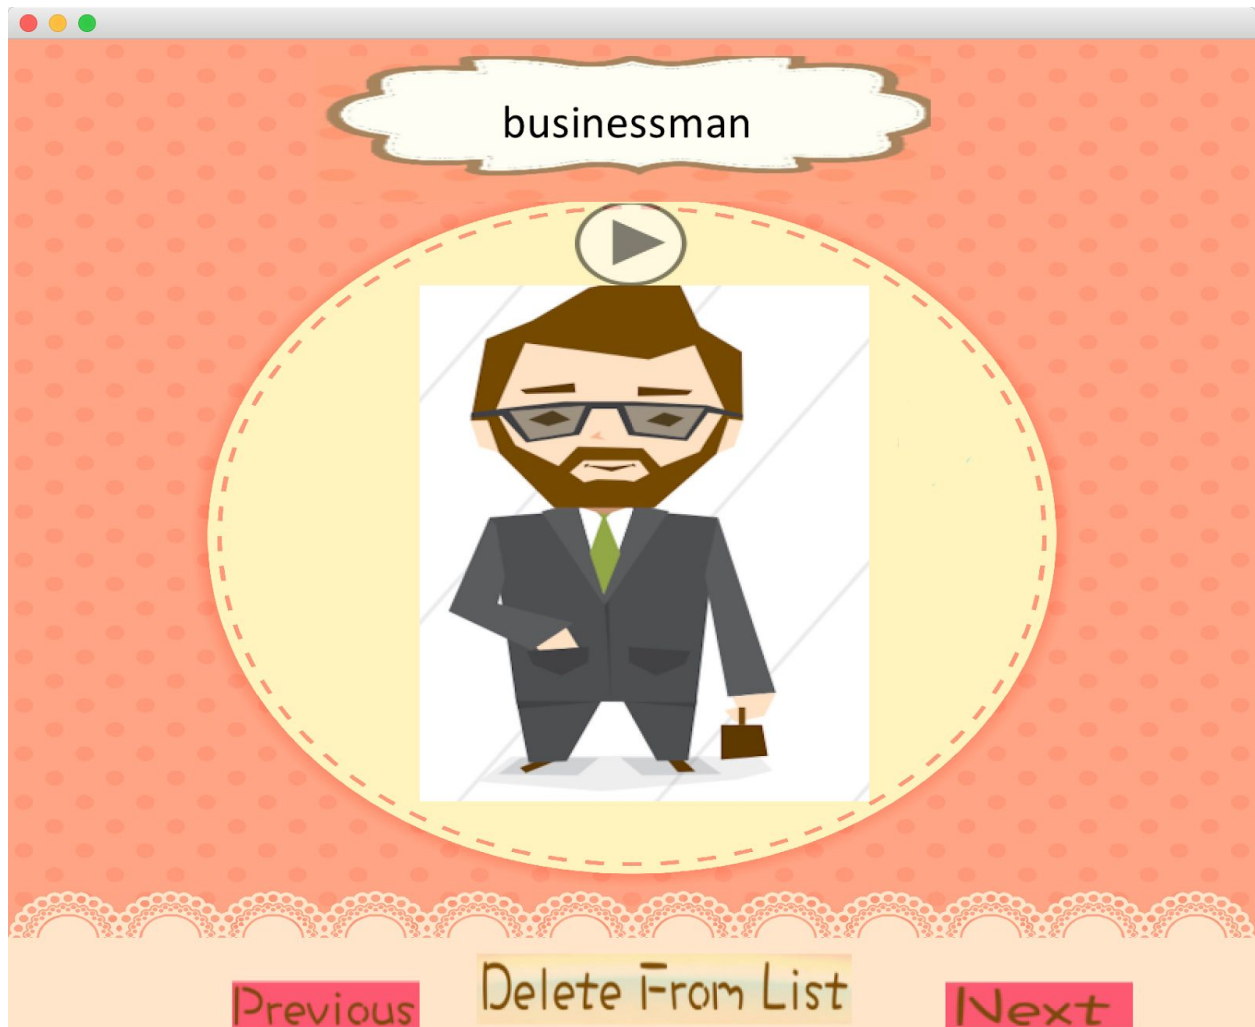

Users need to use Up, Right and Down keys to control the car. Once the car meets an animal, users will need to answer a question related to some word. After users have answered 10 questions, they will get another page to remind them the result. Below are related pages.

4. Review List

There are four buttons in the review list panel.

- Previous

By clicking this button, users can get back to the previous word

- Next

Users will get the next word

- Delete From List

Users can click "Delete From List" to delete the word from review list.

If this button is clicked, users will get the audio for the word.
